

Western Campus Resources Inc.

The Jim Hebden 2025 Chemistry Bursary

Application Guidelines

The Jim Hebden Chemistry Bursary will be awarded to a student who has performed service for their school and/or community while maintaining the grades in science that are necessary for success in post-secondary education. The \$1000 bursary, to be used for post-secondary studies, is presented annually by Western Campus Resources, the exclusive distributor of the best-selling Hebden Chemistry Workbooks 11 & 12.

Any student meeting the following criteria may apply:

- 1. the student has or will complete Chemistry 12 by the end of June 2025
- 2. the student can demonstrate plans to continue the study of chemistry at a recognized post-secondary institution, whether it be toward a chemistry degree or in a field related to chemistry such as nursing or engineering.

The student shall submit a letter describing how the study of chemistry is essential to their educational and career goals. As well, the student should address their financial needs and how this bursary will ease these needs as they study chemistry.

The student will also submit 2 paragraphs explaining

- A. why they would encourage a Grade 10 student to study chemistry; and
- B. what they have done in the past two years to make their school and/or community a better place for others

Note that the total word count for both topics should not exceed 800 words.

The student must also include a letter of reference from a teacher. Note that this letter must state their GPA for Grade 11 and their cumulative GPA to date in Grade 12. In addition, the letter should address the student's character, service to their school and/or community, and the likelihood of future academic success in their chosen post-secondary studies.

The deadline for applications is May 9, 2025. The name of the successful student will be posted on www.WesternCampus.ca by May 16th, 2025.

We thank all of the applicants and the teachers who take the time to write letters on behalf of their students.
